

# Annual Knitting Workshop

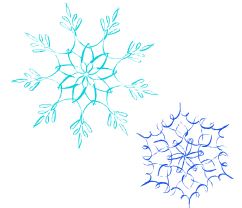

with Margaret Mertz and Lois Dansereau  
At Merck Forest and Farmland Center

Experienced knitters, Margaret and Lois, offer a winter workshop for beginner to advanced knitters at the Visitor's Center at Merck Forest. Beginners should bring size 6 needles and a ball of sport weight cotton yarn. More advanced knitters should bring a started project or one they would like to start. Margaret and Lois are skilled at starting beginners or helping the more experienced with a problem pattern. They will cover the basics, knitting with more than one color, different stitches, making your own design and finishing. Also the American and European methods of knitting. If you need no instruction and just want to join in this social knitting group, you are more than welcome!

Join us January 21, February 11,  
March 10 & April 21.

1-4 pm

This is a free workshop.
